

MOHAMMAD SHAHID ANDLAGUTTI

Senior Technical Writer

anmoshahid@outlook.com | +91 9063887770 | Hyderabad, Bengaluru, Pune | India

Portfolio: <https://anmosht.github.io/portfolio/>

PROFESSIONAL SUMMARY

- Senior Technical Writer with **8+** years of experience delivering high-quality technical documentation for SaaS, Healthcare, telecom, IoT, ITSM, and Aerospace domains.
- Experienced in Content Management, DDLC, DITA XML, HTML-based online help, and IT service documentation leveraging the niche authoring tools and Gen AI.
- Collaborative Skills with global clients from engineering, QA, and SMEs to ensure accuracy, compliance, and usability.
- Strong expertise in creating Quick Start tutorials, continuous e-learning management, and online training.
- A skilled translator of complex technical data into user-friendly content.

PROFESSIONAL EXPERIENCE

Technical Writer

(May 2025 – November 2025)

Astrea Consulting Pvt Ltd (Deployed to Google), Hyderabad

- Created documentation for IT assets through operational guides and maintenance articles.
- Updated knowledge base as per changes brought through user stories from L1/L2 technicians.
- Collaborated with global SMEs, OCM, and service delivery teams to capture functional information.
- Crafted user-friendly instructions for the equipment maintenance and failover escalations.
- Created e-learning videos using AI tools and utilized storyline in creating tutorials.
- Leveraged proprietary AI to polish the content to meet user-centric needs.
- Developed API documentation for internal query system with client's database via Postman.
- Responsible for ensuring periodic updates according to internal query systems over ContentStack.
- Performed peer reviews for changes made through team mates and published to ERP-client.

Senior Technical Writer

(April 2024 – February 2025)

Pylonix Technologies Pvt Ltd (Startup)

- Delivered end-user B2B documentation (SOPs, User Manuals) for US-based Clinical and Insurance products.
- Documented in-house clinical applications pertaining to EMR systems, Capitation computing, Facility management, Member enrollment Insurance platforms and release notes to HTML based online-help.
- Collaborated on SharePoint with developers, testers, and stakeholders to gather raw technical information.
- Utilized Figma screens to capture UI screens to enhance content where annotations are required.
- Performed UI quality testing and captured operations into real-time e-learning content.
- Prepared Release Notes for product releases adhering to delivering deadlines.
- Maintained API Docs with an intent to track bugs in the PHP server.
- Reviewed and maintained version control to keep the content up-to-date with improved usability.

Senior Technical Writer
Sasken Technologies Limited (Contract)

(December 2022 – October 2023)

- Created Installation/Configuration guides and User Manuals for IoT products and standalone applications including LiDAR cameras, measurement sensors, and simulation control devices.
- Collaborated with engineering and service teams in Jira-based within the Agile environment.
- Provided value to the content with UI screens, device imagery, and functional flowcharts across Confluence pages using Markdown files.
- Produced product marketing collateral including fact sheets and brochures to ensure technical accuracy.
- Assessed periodic sprint updates for documentation impact and maintained version control of deliverables.
- Described the API subscription process for SaaS features on the clients ERP.
- Prepared UAT testing scripts in coordination with the QA team to ensure functionality meets requirements.

Technical Writer
Cades Studec Technologies India Pvt Ltd

(November 2016 – December 2022)

- Authored and revised aerospace technical publications including maintenance procedures (AMM), service parts catalog (IPC) on Arbortext editor, TYPO3 and SAP.
- Involved in telecom projects including Inmarsat and KA-Band telephony in developing user manuals.
- Performed analysis from the engineering sheets and CAD-models to extract installation and operational data.
- Investigated system errors and interfaces to create troubleshooting guides to reduce TAT.
- Managed end-to-end documentation workflows over JIRA Kanban tasks on pre-defined DITA XML maps.
- Delivered and maintained content for SaaS based technical support platforms for a span of 5 years.
- Led quality initiatives such as SLA-driven KPIs – CSAT, OTD, and RFT.
- Conducted training sessions, and mentored junior technical writers to adhere with regulatory and safety compliance.

TECHNICAL SKILLS
